

BRAKE PAD PROTECS P A2 201S

Brembo P A2 201S brake pad with ProTecS system

In Brembo brake pads with ProTecS system, the connection between the rear brake pad plate and the spring support ensures the precise use of the spring's elasticity, and hence optimum alignment of the brake pads. Thanks to this design, the durability of brake pads is extended, especially when used on uneven road surfaces.
