

## GROOVE 208B47010

**The 208B47010 brake disc is synonymous with reliability**

The Brembo disc dedicated to Custom and Café Racer motorbikes. The design of the hub, carved entirely from a billet, has a distinctive anthracite black finish. The result is a hi-tech look with a refined cut, further enhanced by the presence of characteristic grooves obtained by mechanical processing after the oxidation process. The ever-present red Brembo logo is set between the spokes of the brake disc hub. In brief: absolute quality and unique style.

- ✓ OE-equivalent
