

# P 65 023 SUPERSEDED BY P 65 031

## P 65 023 (WVA 24554) → P 65 031 (WVA 25691)

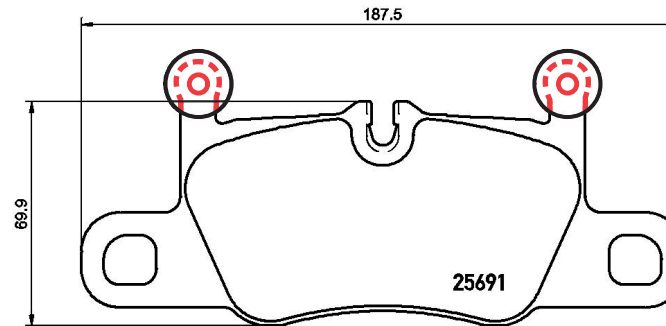

Porsche has replaced their version of P 65 023 with a new part number with counter weights, which corresponds to Brembo P 65 031.

Therefore we will also replace P 65 023 with P 65 031. All vehicles previously linked to P 65 023 are now covered by P 65 031. With this replacement we ensure to be in line with the OE program. As you can see in the diagram below the new reference is equipped with counter weights.

### P 65 023

### P 65 031

Existing stock can be sold out without any problems.
