Tekniske specifikationer

PVT ventileret bremse­skive

PVT bremse­skiver anvender stifter i stedet for ribber i ventilationskammeret. Bremse­skivens kølekapacitet er forbedret med endnu 40% og yder derfor større bestandighed mod revnedannelse.

Bremse­skiver af kulstofstål (HC - High Carbon)

Takket være den høje procent af kul i støbejernets kemiske sammensætning, leverer HC bremse­skiver en højere dæmpningskoefficient, der er i stand til at reducere vibration og støj under kørslen.

UV bremse­skive

UV-belægningsprocessen giver en større modstandsdygtighed over for korrosion og ful beskyttelse af bremse­skiven.
