

DRUM 14.6755.10

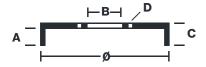

The 14.6755.10 drum is synonymous with reliability

Brembo has developed several design solutions for drum brakes which combine multiple materials to reduce the overall weight. The most popular range of lamellar graphite cast iron drums is supplemented by cast iron drums with a steel sprocket flange and aluminium drums, whereby only the inner part of the drum on which the shoes operate are made of lamellar cast iron, namely the brake band. Additionally drums with built-in bearing kit and hub are added to this range.

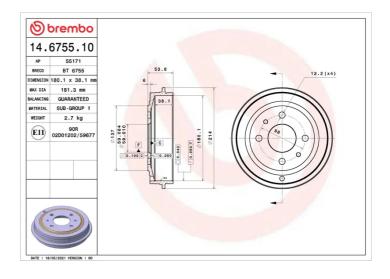

- ✓ OE-equivalent
- Brembo quality
- Safety
- ✓ Durability

Technical specifications

EAN code 8020584675519	Axle Rear	Diameter 180 mm
Width 38,7 mm	Height 54	Number of holes
Centering 59 mm	Max diameter
