

BRAKE PROPORTIONING VALVE

R 61 014

The R 61 014 brake proportioning valve is synonymous with reliability

The different load distribution over the front and rear axles during braking requires the adjustment of the braking force itself, which is managed by the brake proportioning valve. The correct operation of Brembo brake proportioning valves is constantly checked on test benches, where durability tests are also conducted, during which the products are subjected to various cycles with variable load and operating temperature.

- ✓ OE-equivalent
- ✓ Brembo quality
- ✓ Safety
- ✓ Durability

Technical specifications

EAN code		Threading
8432509613498		10 x 1 (2), 12 x 1 (2)
Material	Braking system	
Cast Iron	ATE	

COMPATIBLE OE PART NUMBERS

486177	CITROËN
486177	PEUGEOT
