

CALIPER F 50 160

The F 50 160 caliper is synonymous with reliability

Designed to provide the same performance as new calipers, Brembo remanufactured calipers embody an alternative solution to replacing broken or worn parts with new ones. The brake caliper remanufacturing process involves cleaning and applying a surface treatment to the caliper body, and the renewing of all worn internal components with new ones. The final testing at the end of this process guarantees a Brembo certified product.

- ✓ OE-equivalent
- ✓ Safety
- ✓ New components
- ✓ Brembo quality
- ✓ Durability

Technical specifications

EAN code	Axle	Diameter
