

## BEYOND EV KIT KT 08 058

# EV Kit KT 08 058 comprises brake discs and pads designed for electric cars

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake kit, comprising brake discs and brake pads dedicated specifically to electric cars, avoids early corrosion of the braking system, keeping it effective and safe for longer.

- Brembo quality
- ✓ ECE-R90 certificate
- Comfort
- Durability
- Dust reduction
- Quick assembly
- ✓ Anti-corrosion
- ✓ Kit

#### Kit information

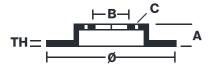

EAN code Brake discs per box Brake pads per box
