BEYOND EV PAD P 56 120E

The P 56 120E brake pad is designed for electric cars

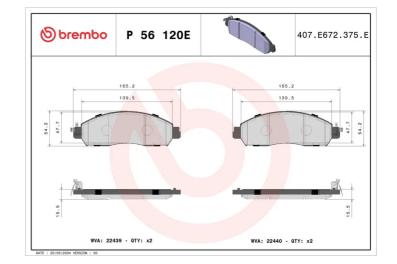

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake pad is coated with a special protective treatment, and when used in combination with Brembo EV brake discs, it avoids early corrosion of the braking system, guaranteeing silent and effective braking.

- Brembo quality
- ECE-R90 certificate
- Comfort
- 🗸 Durability
- Anti-corrosion

Technical specifications

EAN code	Axle	Thickness
8020584123430	Front	16 mm
Width	Height	Braking system
166 mm	54 mm	Akebono
Wear indicator Acoustic	WVA number 22439,22440	Accessories With anti-squeal shim
