

BRAKE DISC GT | D

201.6001A

The 201.6001A brake disc kit for track day enthusiasts

The GT|D, GT|TY1 and GT|TY3 disc kits provide maximum performance and optimum braking balance while retaining original equipment calipers. These systems are in fact designed to be fully compatible with standard calipers, wheels and all other original equipment components. Depending on the vehicle, the discs can be uprated, in which case a dedicated bracket is supplied to allow installation with OE calipers, and the space occupied within the rim must be specified.

- ✓ OE-equivalent
