

T-DRIVE 208A98548

The 208A98548 brake disc is synonymous with reliability

The T-drive disc, born from the experience gained in the top racing categories, is the latest evolution of Brembo racing discs. The special "T"-shape of the pins is the innovative element that strongly differentiates the T-drive from discs with drive pawls. This unique conformation transmits more braking torque, ensuring better resistance to thermal-mechanical stress, especially under extreme conditions of use, such as racing.
