Spécifications techniques

Disque ventilé PVT

Le disque PVT ("Pillar Venting Technology" ou technologie de ventilation à plots) est muni, dans la chambre de ventilation, de plots à la place des ailettes ; ainsi, la capacité de refroidissement du disque est améliorée, avec notamment une augmentation de plus de 40% de la résistance aux criques et fissures thermiques.

Disque avec vis de fixation

Pour une grande partie de sa gamme, Brembo ajoute les vis de fixation dans l'emballage des disques, afin d'apporter un service supplémentaire au mécanicien, au cas où les vis d'origine seraient rouillées ou usées, et non réutilisables.
