

# BEYOND EV DISC 08.B413.1E

**Brake disc 08.B413.1E is designed for electric cars**

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake disc is coated with a special protective treatment, and when used in combination with Brembo EV brake pads, it avoids early corrosion of the braking system, keeping it effective and safe for longer.

- ✓ Brembo quality
- ✓ ECE-R90 certificate
- ✓ Comfort
- ✓ Durability
- ✓ Dust reduction
- ✓ Anti-corrosion
- ✓ Fastening screws

## Technical specifications

EAN code  
**8020584319420**

Axle  
**Rear**

Diameter Ø  
**272 mm**

Thickness (TH)  
**10 mm**

Height (A)  
**48,3 mm**

Number of holes (C)  
**9**

Brake disc type  
**Solid**

Centering (B)  
**65 mm**

Min. thickness  
**8 mm**
