

DRUM

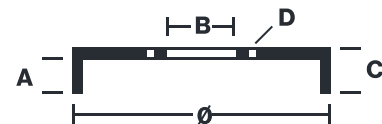

14.4735.10

The 14.4735.10 drum is synonymous with reliability

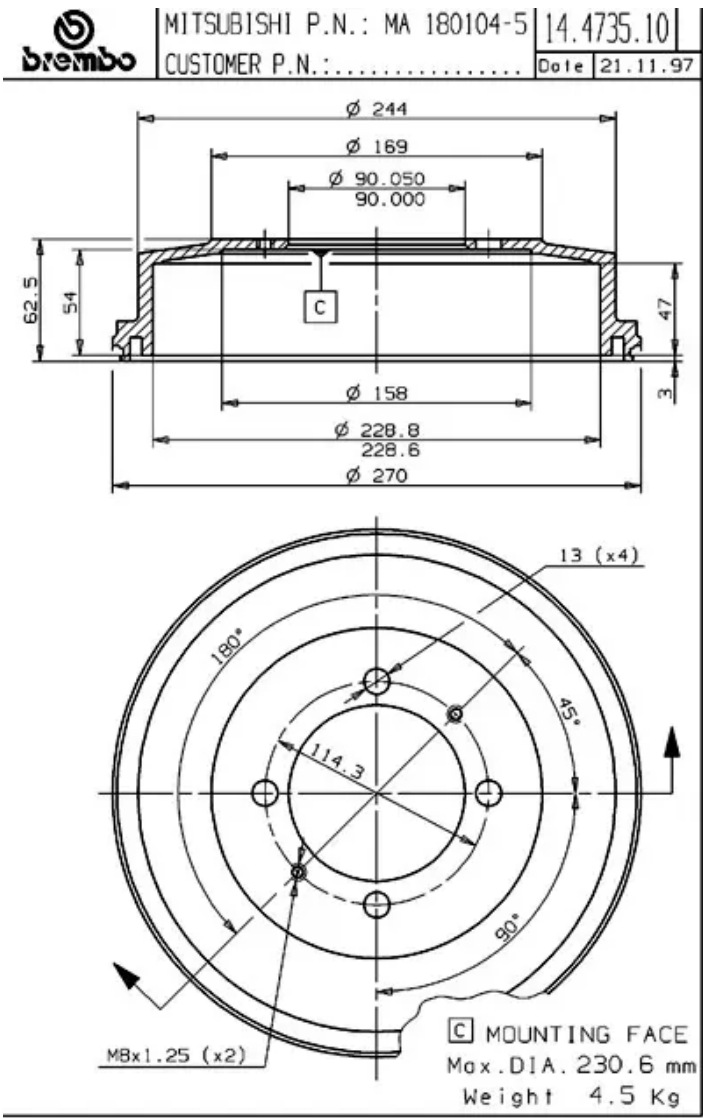

Brembo has developed several design solutions for drum brakes which combine multiple materials to reduce the overall weight. The most popular range of lamellar graphite cast iron drums is supplemented by cast iron drums with a steel sprocket flange and aluminium drums, whereby only the inner part of the drum on which the shoes operate are made of lamellar cast iron, namely the brake band. Additionally drums with built-in bearing kit and hub are added to this range.

- ✓ OE-equivalent
- ✓ Brembo quality
- ✓ Safety
- ✓ Durability

Technical specifications

EAN code	Axle	Diameter
8020584473511	Rear	228 mm
Width	Height	Number of holes
47 mm	62,5	4
Centering	Max diameter	
90 mm	230,6 mm
