

BEYOND EV PAD P 30 056E

The P 30 056E brake pad is designed for electric cars

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake pad is coated with a special protective treatment, and when used in combination with Brembo EV brake discs, it avoids early corrosion of the braking system, guaranteeing silent and effective braking.

- Brembo quality
- ✓ ECE-R90 certificate
- ✓ Comfort
- Durability
- ✓ Anti-corrosion
- ✓ With accessories
