

UPGRADE GT KIT

1N3.9045A_

The 1N3.9045A_ GT kit is synonymous with superior performance

Complete braking systems, comprising components derived from the world of motorsports and offering unrivalled levels of technology on the market. They feature aluminium radial-mounted fixed calipers, with opposing pistons. Depending on the type of system and the required performance level, the calipers can either be in two-parts, monoblock or even monoblock machined from solid billet metal. The uprated brake discs can be integral (one-piece) or composite, drilled or slotted.

Technical drawing of a stepped cylindrical part. The drawing shows a cross-section of a cylinder with a central hole. The total height of the part is labeled TH. The diameter of the base is labeled Ø. The diameter of the central hole is labeled B. The height of the central hole is labeled C. The height of the base is labeled A.

Axle	Diameter	Thickness (TH)
Front	380 mm	34 mm
Caliper pistons	Disc type	Caliper type
6	2 pieces	Monoblock
