

UPGRADE GT KIT

1Q2.9615A_

The 1Q2.9615A_ GT kit is synonymous with superior performance

Complete braking systems, comprising components derived from the world of motorsports and offering unrivalled levels of technology on the market. They feature aluminium radial-mounted fixed calipers, with opposing pistons. Depending on the type of system and the required performance level, the calipers can either be in two-parts, monoblock or even monoblock machined from solid billet metal. The uprated brake discs can be integral (one-piece) or composite, drilled or slotted.

- ✓ Brembo quality
- ✓ Safety
- ✓ Performance

A cross-sectional diagram of a microstructure. It shows a central rectangular layer with a height labeled C . This layer is supported by a wider base layer with a total height labeled TH . The width of the central layer is labeled B . The total width of the base layer is indicated by a dimension line at the bottom labeled with the symbol \varnothing . The right side of the diagram is labeled A .

Axle	Diameter	Thickness (TH)
Front	412 mm	38 mm
Caliper pistons	Disc type	Caliper type
8	2 pieces	BM monoblock
