

UPGRADE GT KIT

2S3.9020A_

The 2S3.9020A_ GT kit is synonymous with superior performance

Complete braking systems, comprising components derived from the world of motorsports and offering unrivalled levels of technology on the market. They feature aluminium radial-mounted fixed calipers, with opposing pistons. Depending on the type of system and the required performance level, the calipers can either be in two-parts, monoblock or even monoblock machined from solid billet metal. The uprated brake discs can be integral (one-piece) or composite, drilled or slotted.

- ✓ Brembo quality
- ✓ Safety
- ✓ Performance
- ✓ Comfort
- ✓ Sports driving
- ✓ Sporty look

Available in 5 colours

A cross-sectional diagram of a microstructure. It shows a central rectangular layer with a height labeled 'C' and a width labeled 'B'. This central layer is situated on a base layer with a total height labeled 'TH'. The base layer has a total width labeled with the symbol 'Ø' (diameter). The top surface of the base layer is labeled 'A'.

Axle	Diameter	Thickness (TH)
Rear	380 mm	28 mm
Caliper pistons	Disc type	Caliper type
4	2 pieces	BM monoblock
