

## GP4-RX 220B01020

The 220B01020 caliper is synonymous with reliability

The body of this caliper is carved entirely from a billet and consists of two mechanically connected pieces. Particular care was devoted to seeking high braking power and rigidity by using innovative design solutions. The hydraulics are the result of careful fine-tuning. The use of a single piston diameter allowed a further increase in braking power and modularity.
