Specificații tehnice

Disc ventilat PVT

Discul PTV utilizează, în camera de ventilație, cuie în loc de pene. Capacitatea de răcire a discului mărește cu peste 40% rezistența discului la fisurile termice.

Disc High Carbon (HC)

Datorită procentului ridicat de carbon din compoziția chimică a fontei, discul HC oferă un coeficient de amortizare superior, capabil să reducă vibrațiile și nivelul de zgomot în timpul condusului.

Disc UV

Procesul de vopsire UV garantează o rezistență superioară la coroziune și o protecție completă a discului.
