

## **BEYOND EV DISC 09.N265.2E**

## Brake disc 09.N265.2E is designed for electric cars

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake disc is coated with a special protective treatment, and when used in combination with Brembo EV brake pads, it avoids early corrosion of the braking system, keeping it effective and safe for longer.

- ✓ Brembo quality
- ✓ ECE-R90 certificate
- ✓ Comfort
- ✓ Durability
- ✓ Dust reduction
- High carbon
- ✓ Anti-corrosion
- ✓ PVT ventilation

## **Technical specifications**

EAN code <b>8020584319567</b>	Axle Front	Diameter Ø  355 mm
Thickness (TH) <b>32</b> mm	Height (A) <b>70,7</b> mm	Number of holes (C) <b>5</b>
Brake disc type <b>Ventilated</b>	Centering (B) <b>70</b> mm	Min. thickness <b>30</b> mm
