

# BRAKE PROPORTIONING VALVE

## R 23 002

**The R 23 002 brake proportioning valve is synonymous with reliability**

The different load distribution over the front and rear axles during braking requires the adjustment of the braking force itself, which is managed by the brake proportioning valve. The correct operation of Brembo brake proportioning valves is constantly checked on test benches, where durability tests are also conducted, during which the products are subjected to various cycles with variable load and operating temperature.

- ✓ OE-equivalent
- ✓ Brembo quality
- ✓ Safety
- ✓ Durability

### Technical specifications

EAN code  
8432509613283

Axle

Threading  
10 x 1 (2)

Material  
Cast Iron

Braking system  
Bendix

COMPATIBLE VEHICLES
