

BEYOND EV PAD P 54 063E

The P 54 063E brake pad is designed for electric cars

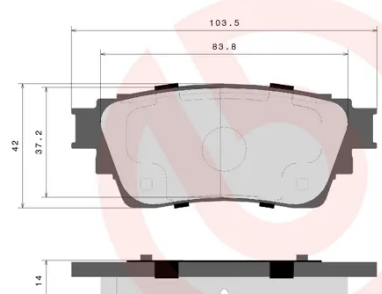

The use of regenerative braking, in electric vehicles, entails a more discontinuous use of the friction brake compared to a car with a combustion engine. For this reason, special attention is required to avoid the corrosion of brake discs and brake pads. The Brembo EV brake pad is coated with a special protective treatment, and when used in combination with Brembo EV brake discs, it avoids early corrosion of the braking system, guaranteeing silent and effective braking.

- ✓ Brembo quality
- ✓ ECE-R90 certificate
- ✓ Comfort
- ✓ Durability
- ✓ Anti-corrosion

Technical specifications

EAN code 8020584129982	Axle Rear	Thickness 14 mm
Width 104 mm	Height 42 mm	Braking system Advics
Wear indicator Acoustic	WVA number 22864	Accessories With anti-squeal shim
